Alberta Need Not Fear Fordney Bill on British Embargo if Breeders Can Feed Cattle

H. P. Kennedy Would Have Banks Carry Rural Credits for Another Six Months—Advantage of Plan Was Outlined Friday Meeting of the Board of Trade

H. P. Kennedy, president of the Edmonton Stock Yards, in a vigorous and convincing address to the Edmonton Board of Trade during the fourteen-hour session, opened his remarks by pointing out that the embargo on British livestock exports was not a new thing, but was a thing which had been experienced before. He stated that the embargo was not a new thing, but was a thing which had been experienced before.

A. E. MEYER HAS LEFT SERVICE OF THE GOVT

Has Been with the Department of Agriculture Since 1914

A. E. Meyer, D.D., superintendent of agricultural schools, department of agriculture, has been notified of his resignation from the department. He has been with the department since 1914.

The stockman was not the only agriculturalist who was in the past days of farm products generally having experienced a very low price. The price of livestock, however, was not so low.

Advantage of finishing cattle in Alberta was shown by the fact that the price of a recent shipment of cattle from the province was higher than that of a similar shipment from the United States.

At the close of the session a resolution was unanimously passed suggesting that a conference of representative breeders, inspectors, men, farmers, stockmen, and manufacturers should be called by the province of Canada at an early date to discuss the livestock situation.

TEMPERATURE IN WEST LOWERS BUT FROST ESCAPED

Thursday Night's Sudden Dip Created Some Alarm, But Danger Passed

"I tell you there was no frost in Edmonton last night. How could there be when the lowest temperature was at degrees above zero?" said the lady on the meteorological bureau this morning with some degree of vexation when a citizen inquired if there must have been frost because it appeared to him to have been as if it had been cold night when he was returning to his home about eleven o'clock.

Attention at the weather bureau was very careful to make record of the movement of the clouds during Thursday night and Friday morning and speak officially when she said that at no time did the mercury descend lower than 45 above between the hours of 5 in the afternoon and 2:30 in the morning.

Temperature Was Low
Thursday night there were several indications that the weather bureau might have been right. There was the light mist which the individual who is a prophet at this time of the year looks upon as critical.

As the clouds began to appear and there was a slight fall in the temperature, there was the disappointment of the worst case of the weather. The danger of frost for the present was past. According to the old adage, the fall of the moon is past, without frost.

No Damage Seen Yet
Winifred, Aug. 13.—The weather has turned out to be just what was needed. The cutting and through the wheat crop.

Everywhere and fine weather is needed. As the clouds began to appear and there was a slight fall in the temperature, there was the disappointment of the worst case of the weather.

Good Harvest Weather
Prince Albert, Sask., Aug. 13.—This morning continued from dinner and today it is clearing into a fine harvest weather again. According to all the information procurable, there will be a very lucky yield of wheat and oats.

The average of wheat now in the east of which cut will run around four bushels according to the farmers. But the general average will be below that as some fields are not ripened yet. Many other crops are in the hands of the farmer. It is a wonderful year. It is a wonderful year.

HEAVY RAINS HAVE STOPPED FURTHER FLOODS
St. John, N.S., Aug. 13.—A heavy downpour of rain throughout the province yesterday destroyed the fine promise which had lingered in many parts of New Brunswick. The rain-fall during the day was almost as great as the entire precipitation during the month of July.

CUTICURA HEALS PIMPLES ON FACE
Also Itchy Scalp, Hair Fall Out, Face Disfigured.

"My head began to itch and there were sores on my scalp. My face came out badly when washed and a lumps very dry and thin. I also had pimples and blackheads all over my face. The pimples were large, red, and caused me to scratch and irritate them, and my face was disfigured."

"The trouble lasted about two months and I began using Cuticura Soap and Ointment. After I had used two cakes of Soap, my face was completely healed. My hair began to grow again. (Signed) M. J. Jackson, R. 3, Goldenfield, Wash."

Improve your skin by daily use of Cuticura Soap, Ointment and Tablets. They are ideal.

Electrically Treated After Six Weeks' Treatment With "FRUIT-A-LIVE"

MR. AMERICK GARREAU

32 Hickory St., Ottawa, Ont.

"I was for many years a victim of terrible disease, Rheumatism. In 1917 I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work as a electrician."

"I tried many remedies and was under the care of a physician, but nothing did me any good. Then I began to take 'Fruit-A-Live' and in a week I was able to walk, and in a month I was well. I went to work again."

"I look upon this fruit medicine, 'Fruit-A-Live', as simply marvelous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-A-Live' a trial."

TAXPAYERS OF UNITED STATES
SAVE \$376,000.000
By Turning Back Railways to Private Operation

Chautauque, N.Y., Aug. 19.—Surrender of the United States railroads to private ownership today in an address at the Chautauque convention, if government operation had continued and rates not been raised, there would have been a deficit of \$1,150,000,000 to meet through increased taxes, he said.

Grain Crops More Than Wonderful, But Oil Wells and River Traffic Dull

Additional Men Will Be Brought In From British Columbia Cities

Captain Williford has just returned to the city after an extended visit to the Peace River country and states that the crops in the north are wonderful. This advice scarcely covers the idea of the grain fields across the river, but it is a fact that the agricultural element in the north country should have a more than prosperous year. Harvesting has commenced in many places and is well advanced. The grain appears to be in the best stages of ripening. The railway extension from Peace River to Bear Lake is being pushed ahead as fast as possible. The construction gangs and the men should reach the river in one or two weeks at the latest.

Irish Offer Go't Limit Over London

Lloyd George Makes Strong Statement in regard to Situation in Ireland—Hopes Horrors of Civil War Will Be Averted

London, Aug. 19.—The British government in its Irish peace offer has conceded everything it was possible to concede. Premier Lloyd George declared to the house of commons today in his statement on the Irish peace negotiations.

It embodied the largest measure of freedom ever offered Ireland, he said, and he hoped the Irish leaders would not reject it, "and take the responsibility of renewing a conflict which would be robbed of all glory and all gratitude by its overwhelming horrors."

Mr. Lloyd George disclaimed any menace for his words. He declared, however, that the government in making its terms had done everything it could to secure peace and the good will of the people of Ireland, and that it was faced with the possibility, through some things that had been said, that its terms would be rejected. In that case, he said, the country would face a graver situation regarding Ireland than ever before.
